

GP Hub Survey

The Government is proposing to give £37m to Sheffield NHS to build 5 new GP Hubs. The Hubs would be in the following areas.

City Centre, Southey Green, Fir Vale, Firth Park and one to be confirmed BC

The new Hubs will mean the closure of the existing GP Surgeries who participate in these hubs.

Each GP surgery would relocate to the new GP Hub.

The Government says if this is not accepted then they will withdraw the money.
